ABOUT US

M&M Oil Tools has proudly served the oil and gas industry since 1944, delivering high-performance tools designed to increase reliability, simplify maintenance, and provide lasting value. From the beginning, our focus has been on solving real-world challenges with innovative, dependable solutions.

We are committed to serving our customers with excellence, offering quality tools that perform under pressure, and supporting operations around the globe. Our product line includes casing scrapers and brushes, safety and kelly valves, internal blowout preventer valves, and surface test trees (flowheads).

Our tried-and-true PWC Cartridge™ style kelly and safety valves reflect our continued drive to provide tools that reduce downtime, improve safety, and add measurable value.

Operating out of our purpose-built facility in Breaux Bridge, Louisiana, we're equipped to meet today's demands with faster turnaround times, tighter quality control, and enhanced testing capabilities. M&M Oil Tools is here to support your success—every job, every time.

STANDARD DIES & INSERTS

- M&M manufactures all standard dies and inserts for BJ/Varco, Forum, Baash Ross, and Woolley tools.
- Available in multiple tooth configurations, including coarse tooth, fine tooth, diamond, full diamond, directional, non-directional, CRA Grip, and more, where applicable.
- All dies are manufactured in the United States using high-quality grade steel.
- M&M's API-licensed facility ensures consistent, industry-standard quality.
- M&M supplies dies and inserts to some of the industry's most recognized names.
- With distributors and industry experts worldwide, M&M delivers the right die for your application—every time.

REPLACEMENT DIE FOR DRILL PIPE WRENCHES

- Holds 4 1/2"–6 5/8" and 6 5/8"–8 1/2" pipe sizes, compared to older 18" models.
- Contoured to fit the most common pipe sizes.
- Heat-treated for increased hardness and contoured for enhanced core strength.
- Lasts more than four times longer between die changeouts.
- Increased tooth coverage improves gripping performance and holding capacity.
